

# DEAD BATTERIES CAN'T SAVE LIVES

Change the batteries  
in your smoke detector

Change the batteries in your smoke detector before the old ones run out. That way, your smoke detectors can warn you and your family to escape in the event of a fire.

Follow these tips to keep your smoke detectors in top working shape:

- Test your smoke detectors monthly and put in new batteries at least once a year;
- Vacuum over and around detectors to keep them free from dust and debris.

**When it comes to smoke detectors, a new battery goes a long way.**
